

July 11, 2022

Monthly Meeting Minutes

1. MOU Revision and 2022/2023 Budget – 2nd round of comments in. One Shoreline (San Mateo) still to review. All agencies to be invoiced shortly.
2. Summer Flood Control Projects Round Robin
 - a. Zone 7 Santa Cruz: while the Stream Maintenance Program was in progress, the county was told to submit a WDR for a project. The process that ensued was protracted: multiple requests for more information.
 - b. Zone 7 Alameda County, has also received multiple requests for additional information that have held up permits/extended permitting time and costs. This has been discussed in the BAFPAE Environmental Permitting Committee. We should agendaize it again and strategize as to how to get this to a higher level of management (perhaps new Water Board EO?).
 - c. Vallejo is trying to install an in-channel trash capture device. This installation has also required a Regional Board permit. Mitigation has been tricky: there have been back and forth regarding homeless encampments and mitigation ratios. What has emerged is discrepancies in guidance from Water Board management and line staff.
3. BAFPAE Website is being updated with a new logo. Members should check the site and ensure that their agency's logo and links are current.
4. CHARG – The steering committee met again this month to discuss progress on white papers and the budget.
5. AQPI X-Band Radar not installed yet at Rocky Ridge. Contra Costa working on the internet.
6. Next Meeting: September 12, 2023

Attending:

Santa Cruz Zone 7: Antonella Gentile, Mark Strudley

Valley Water: Katie Muller, John Jankovitz

Contra Costa: Mark Boucher, Tim Jensen

Sonoma Water: Carlos Diaz

Vallejo: Natalie Muradian

Zone 7 Alameda: Elke Rank

NCE: Mike Carlson

Jennifer Krebs, BAFPAE Staff
