

Levee Owners Workshop

September 26, 2024 9:00am – 4:00pm

Bay Model, Sausalito, California

In-person attendance encouraged, virtual participation is available

DRAFT AGENDA

Part 1: Be Ready for Flood Season!

How you can prepare for the rainy season

- Assess levee condition
- Know where your weak spots are – where you will need to floodfight
- Interagency preparedness resources

What to do if you are at immediate risk of flooding

- Flood fighting resources
- PL84-99 Tech Assistance

What to do to recover your levee system

- Assessing and documenting damages
- What support can you get from USACE, FEMA, other agencies
- The process to request repairs
- Tips and tricks
- When 408 is required
- Regulatory requirements if you do the repairs yourself

Panel Discussion: Weathering a Rainy Season

- What does this all look like in practice: agencies share their stories, experiences, common pitfalls, tips, lessons learned.
- ANY VOLUNTEERS?

Lunch Break

Part 2: Long Term Planning

USACE Levee Safety Program

- Inspections
- Getting into the PL84-99 program
- Levee Screening Tools
